# FROM ABSTRACT TO REALISM: DISCOVER YOUR ART PERSONALITY!

Abstract art is gaining popularity in Asia. As the name suggests, it is an abstraction of ideas and experiences with few or no recognizable objects, giving the viewers freedom of interpretation. Surrealism on the other hand includes recognizable objects but moves away from traditional interpretations and conventional methods. Realism, the oldest of them all, has always had its followers and loyalists who are enticed by the keen attention to detail in these works and the ability of the artist to capture real life on canvas.

MayinArt's special curation "Discover your art personality", presents artworks that encompass various styles and methodologies that work well in tandem while showcasing the best talents who create these mesmerizing pieces of work. The exhibits will showcase Indonesian, Indian and Singapore artists across various ages who are active and evolving, both in their technique and finesse. From young talents to masters we offer a wide range of works in diverse styles.

For viewers, this will be a seamless journey across different genres catering to different sensibilities, while allowing them to discern their own passion and inclination to art styles and discover their individualized art personality.

At MayinArt, we are particularly devoted to uncovering genuine and creative artists from the most interior and remote areas of Indonesia and India, and bringing their works to art aficionados around the world. With this show, we hope to give the opportunity for all art patrons in Singapore to get ready to discover their very own and unique art personality.

A dense crowd of people, their faces and bodies covered in a complex, textured pattern of small, illegible text. The colors are primarily blue, purple, and brown, giving it a somber and layered appearance. The figures are packed closely together, filling the frame from the foreground to the background.
